ACKNOWLEDGEMENT

We sincerely owe our gratitude to all the persons who helped and guided us in completing this mini project work.

We are thankful to **Dr B.G. Naresh Kumar**, **Principal, Maharaja Institute of Technology Mysore**, for having supported us in our academic endeavors.

We are extremely thankful to **Dr Sharath Kumar Y. H, Professor and Head, Department of Information Science and Engineering**, for his valuable support and timely inquiries into the progress of the work.

We are greatly indebted to our guide **Dr Sharath Kumar Y. H, Professor and Head, Department of Information Science and Engineering**, for the consistent co-operation and support.

We are obliged to all **teaching and non-teaching staff members, of Department of Information Science and Engineering,** for the valuable information provided by them in their respective field's. We are grateful for their co-operation during the period of our mini project.

ABSTRACT

The overall aim of "CRITERIA-6 AUTOMATION SYSTEM" is to automate the existing manual system by the help of computerized equipment and fully-fledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. The required software and hardware are easily available and easy to work with.

"CRITERIA-6 AUTOMATION SYSTEM", as described above, can lead to error free, secure, reliable & fast management system. It can assist the user to concentrate on their other activities rather to concentrate on the record keeping. The admin can maintain computerized records without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information.

The aim is to automate its existing manual by the help of computerized equipment and full-fledged software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy accessing and manipulation of the same. Basically the project describes how to manage for good performance and better services for the clients.
